AboutGitHubSupportPlant Database

The user has entered their email address

The screenshot displays a web interface for a "Plant Database". At the top, there is a green header bar with the title "Plant Database" in white text. Below this, the main content area has a light gray background. Centered in this area is a white rectangular box containing a login and registration form. The form has two tabs at the top: "Log In" (which is highlighted with a dark gray background) and "Register" (with a light gray background). Under the "Log In" tab, there are two input fields. The first is labeled "email:" and contains the text "gar18@aber.ac.uk". The second is labeled "password:" and contains eight asterisks "*****". Below these fields is a large teal button labeled "Login". At the bottom of the page, there is a black footer bar. On the left side of the footer, the words "About", "GitHub", and "Support" are listed in white. On the right side, the words "Plant Database" are displayed in white.

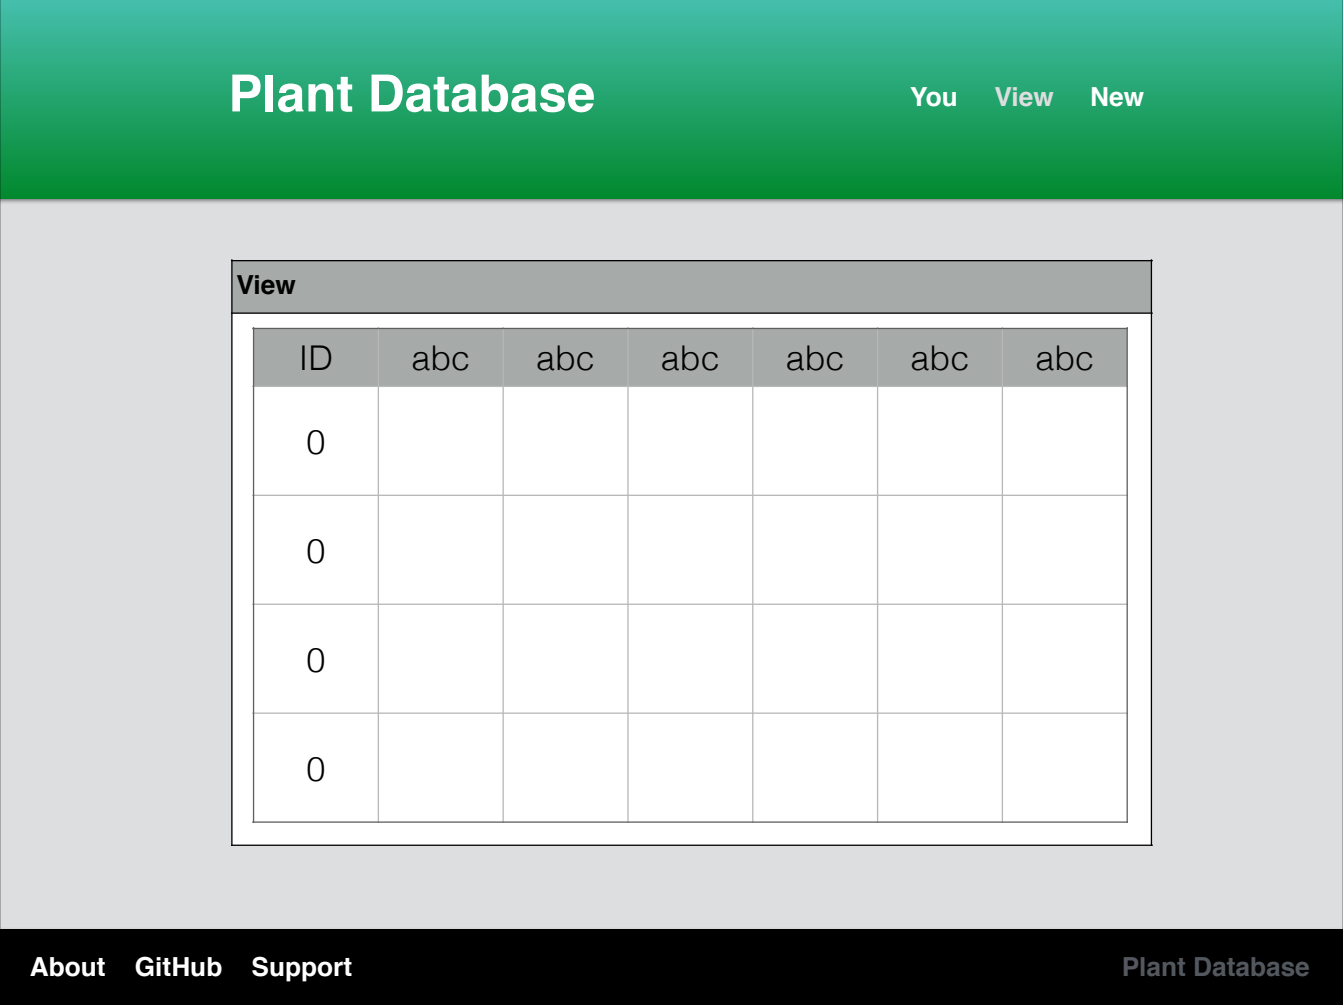

The user has entered their password

Log In form is now complete and the user clicks the sign up button

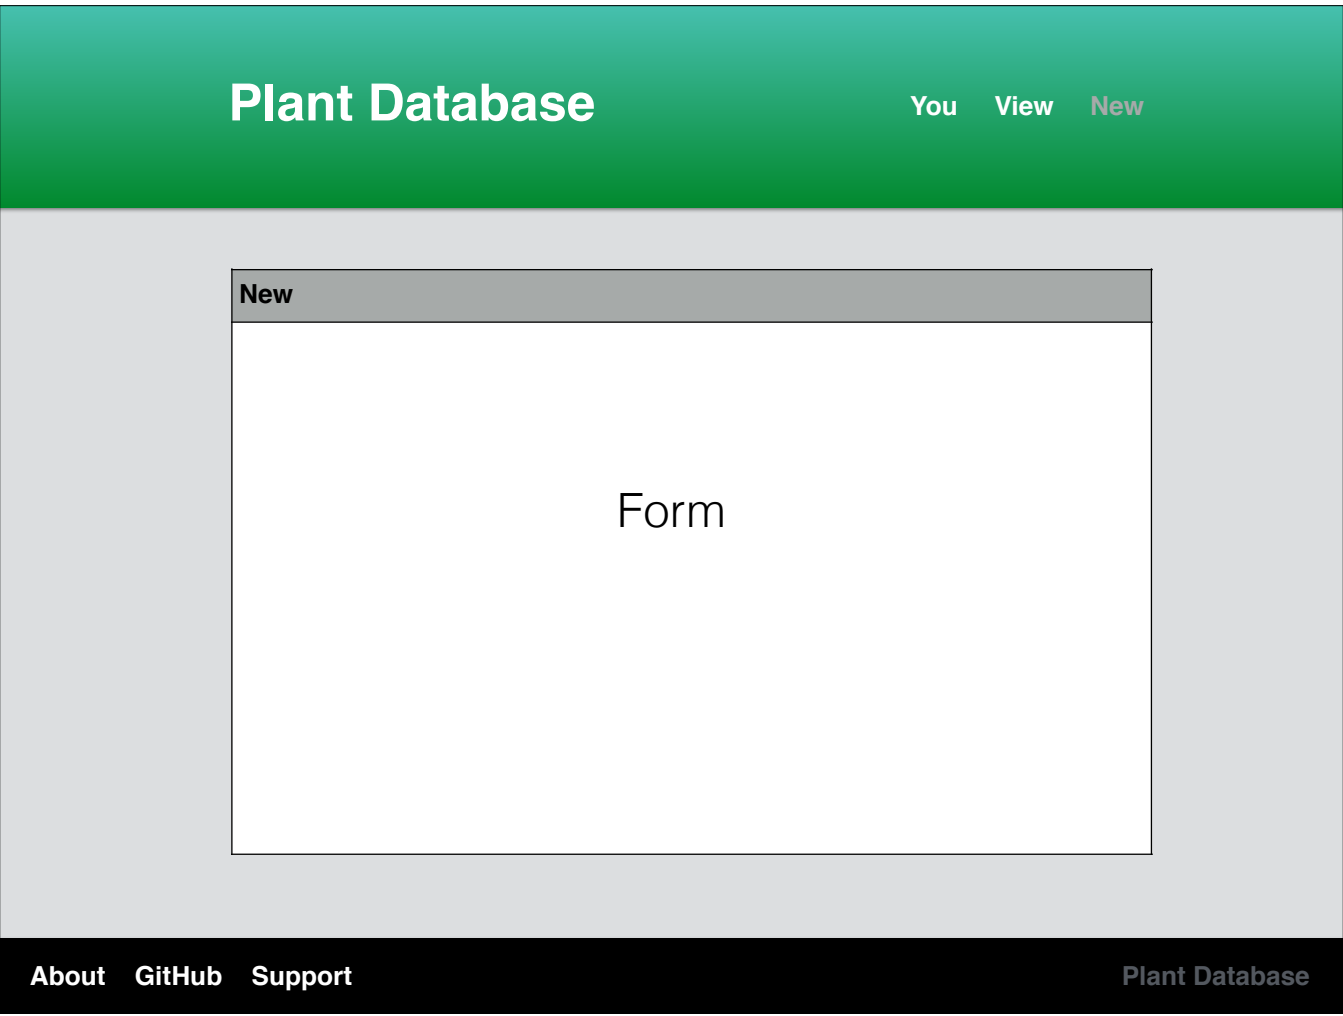

The user is brought to the You page by default. The user can edit their name, email and password here

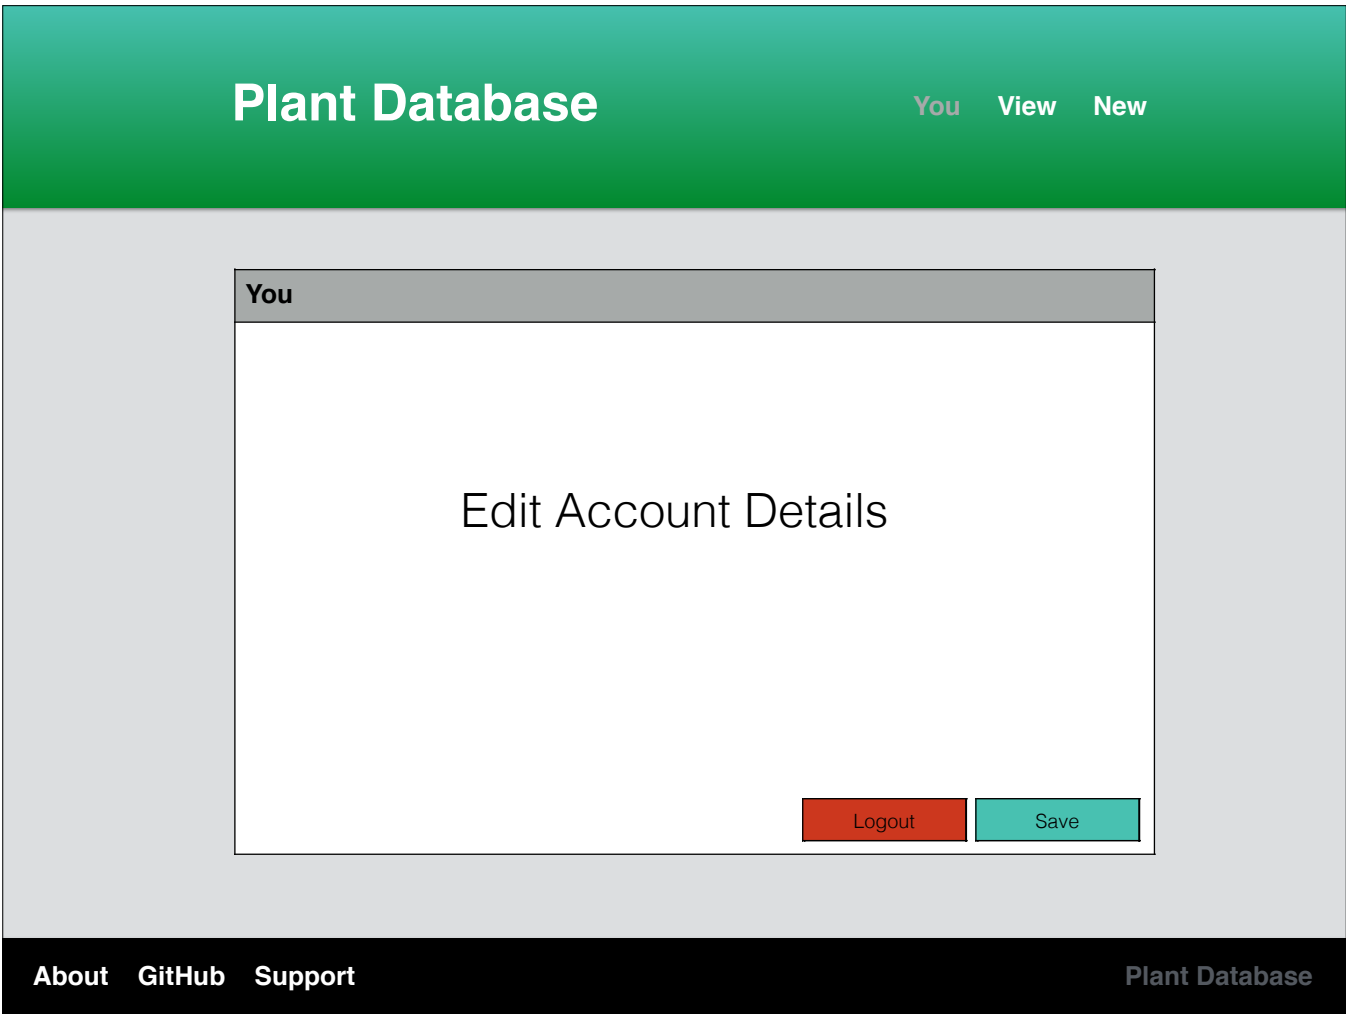

They can save their details here once edits have been made

The View page allows the user to view the database records

The New page allows the user to create a new record

Back to the You page now and the user can click Logout to logout when they are ready

That will log them out and redirect them back to the login screen (index)

The footer has links on too!

They are present both when logged in and logged out. This is shown as if the user is logged out and wanting to read about the Plant Database application.
